

Position: Data and Voice System Installer/Field Engineer

EXPERIENCED ONLY! TRAVEL A MUST!

Rhema IS, Inc., a privately owned IT service organization based in Hamilton, OH, is currently seeking an experienced full-time individual for a Tri-State Field Engineer position.

ABOUT THE COMPANY:

Rhema IS, Inc. specializes in installation, troubleshooting and repair of data cabling, network hardware, POS and digital signage as well as analog and digital voice systems for retail businesses and financial institutions. Since the foundation of the company in 2004, we have integrated, installed, and designed and repaired thousands of systems in the tri-state area. We have also run installation projects lasting up to six months and covering 12 states.

GENERAL DESCRIPTION:

Applicant should have at least 2 years of experience working in the data/phone/networking field, and performing installations with Cat52, Cat6, RG6 and electronic hardware. Must be a self-starter with the ability to lead work alone or with others. Ability to fully terminate cables (Punchdown, crimping, soldering etc) are required. Thorough knowledge of terminating plug, biscuit, 66 and 110 blocks. Experience with inside Fiber optic cabling and termination a plus.

A successful applicant must possess good overall problem solving & troubleshooting skills, and be capable to interact with customers, electricians, general contractors as well as have a neat/professional appearance. A+, Network +, Bicsi, hardware or cabling certifications are a plus.

ESSENTIAL DUTIES:

Installation of all types of commercial electronic equipment: switches, patch panels, POS, kiosk, digital signage, and more. The majority of the work is performed offsite at commercial and government accounts.

- Installation of the cabling and hardware at the client's facilities
- Installation, servicing & adjusting professional video & audio equipment
- 50%+ travel is involved, thus a successful candidate must be able to work days or nights.
- Travel in the local area (Louisville, Lexington, Cincinnati, Dayton, Columbus, and Indianapolis) as well as regional area are a MUST!

EXPERIENCE AND SKILLS:

MUST have at least 2 years of commercial or residential data/voice installation/repair experience

MUST have a computer and printer

Hands on mechanical aptitude and soldering skills

Understanding of low voltage systems for data and voice

Knowledge of networking and phone equipment

Candidate must be able to read and follow blueprints, schematics, technical manuals and be capable of making changes in the field (on-site)

Good communication skills and customer service attitude

Ability to lift heavy equipment, as needed

High school diploma

AA or BA/BS College Degree is preferred

Valid driver's license with a clean driving record, auto insurance, and MUST have a vehicle

Enjoy working in a variety of locations on very exciting projects

Neat and professional appearance

Must have hand/power and standard networking tools (negotiable)

This position includes a competitive salary depending on skill set, experience & certification level.

To apply, please send:

1. a cover letter explaining your specific experience in the AV and videoconferencing industry, with sample projects attached (if available) as well as salary requirements, and
2. your current resume,

to jobs@rhemais.com, include Field Engineer in the Subject line.
(ALL job inquiries to any other e-mail address will be disregarded)

PLEASE NOTE: Applicants who fail to submit either one of the requirements (cover letter, salary requirements, or resume) will automatically be disqualified from consideration.
